Profile:

I am a creative smart boy, a student and a professional web developer who loves exploring new technologies and building cool stuff. I'm passionate about coding, gaming, and music.

Work Experience:

- **Web Developer:** *I have been working as a front end web developer for long and gained a lot of experience in this sector.*

- **Prompt Engineer:** *Since the revolution of artificial intelligence in 2022, I have been working in this field. And I love A.I. I am passionate in using every kind of A.I. tool. I can generate high quality image, video, music, website and everything with the help of A.I. in just a few second.*

- **Graphic Designer:** *I am also good in graphic design. And I have made a lot of them including logos.*

- **Video Editor:** *I am also a professional video editor. I have quite long experience in the YouTube platform.*
